The diagram illustrates a network of 28 countries, each represented by a grey circular node. Directed arrows (edges) connect these nodes, representing relationships or flows between them. The countries are distributed across the image, with the USA and Germany acting as central hubs. The USA has numerous outgoing arrows to countries like taiwan, france, mexico, egypt, bahrain, israel, italy, thailand, and pakistan. Germany has arrows pointing to australia, singapore, norway, denmark, india, brazil, turkey, greece, and thailand. Other countries like the UK, China, and Iran also have multiple connections. The network shows a high degree of connectivity, particularly around the central nodes.
